

This is a first test of Jmol in a PDF file.  
It was created using the trial version of  
DeepExploration from Right Hemisphere  
Software on July 28, 2009.  
<http://www.righthemisphere.com>

The file is 1crn.pdb. The Jmol output  
was created using the command

**write t.vrml**

and the very latest Jmol version, in  
<http://chemapps.stolaf.edu/jmol/docs/examples-11/Jmol-11.zip>. The VRML  
file was dragged into Deep Exploration and then saved as a U3D file. That  
file was then added to a PDF file using Adobe Acrobat 9.0 Pro.  
(Apparently 7.0 is sufficient.)

That's about all I know how to do right now.

The zooming of the model may take a little getting used to if you are more  
familiar with Jmol because it is reversed from Jmol.

-Bob Hanson
